REST API Documentation

Base URL (local development): <http://127.0.0.1:8000> | Version: 1.0.0 | Interactive docs: /docs

All endpoints marked **Auth Required** expect an `Authorization: Bearer <token>` header, obtained from `POST /auth/login`. Endpoints not marked require no authentication.

Contents

Authentication (3 endpoints)

- `POST /auth/register` — Register
- `POST /auth/login` — Login
- `GET /auth/me` — Get My Profile

Resumes (1 endpoint)

- `POST /resumes/upload` — Upload Resume

Job Descriptions (3 endpoints)

- `GET /job-descriptions/` — List Job Descriptions
- `POST /job-descriptions/` — Create Job Description
- `GET /job-descriptions/{job_id}` — Get Job Description

Evaluations (3 endpoints)

- `POST /evaluations/analyze` — Analyze Candidate
- `GET /evaluations/{evaluation_id}` — Get Evaluation
- `PATCH /evaluations/{evaluation_id}/rating` — Update Evaluation Rating

Interview Questions (2 endpoints)

- `POST /interview-questions/generate` — Generate Questions
- `GET /interview-questions/candidate/{candidate_id}` — Get Questions For Candidate

Candidates (5 endpoints)

- `GET /candidates/` — List Candidates
- `GET /candidates/{candidate_id}` — Get Candidate
- `PUT /candidates/{candidate_id}` — Update Candidate
- `DELETE /candidates/{candidate_id}` — Delete Candidate
- `POST /candidates/compare` — Compare Candidates

Dashboard (4 endpoints)

- `GET /dashboard/summary` — Get Dashboard Summary
- `GET /dashboard/skills-distribution` — Get Skills Distribution
- `GET /dashboard/experience-distribution` — Get Experience Distribution
- `GET /dashboard/upload-stats` — Get Upload Stats

Chat Assistant (1 endpoint)

- `POST /chat/` — Chat

Activity Logs (1 endpoint)

- `GET /activity-logs/` — List Activity Logs

Other (1 endpoint)

- `GET /` — Read Root

Authentication

User registration, login, and session management.

POST /auth/register

Public

Register

Request Body

UserCreate

Responses

- **200** → UserResponse
- **422** → HTTPValidationError

POST /auth/login

Public

Login

Request Body

UserLogin

Responses

- **200** → Token
- **422** → HTTPValidationError

GET /auth/me

Auth Required

Get My Profile

Responses

- **200** → UserResponse

Resumes

Resume upload and AI-powered parsing.

POST /resumes/upload

Auth Required

Upload Resume

Request Body

multipart/form-data — field: file (binary, required)

Responses

- **200** → ResumeUploadResponse
- **422** → HTTPValidationError

Job Descriptions

Create and browse job postings used for AI matching.

GET`/job-descriptions/`**Auth Required**

List Job Descriptions

Responses

- **200** → array of JobDescriptionResponse
-

POST`/job-descriptions/`**Auth Required**

Create Job Description

Request Body

`JobDescriptionCreate`

Responses

- **200** → JobDescriptionResponse
 - **422** → HTTPValidationError
-

GET`/job-descriptions/{job_id}`**Auth Required**

Get Job Description

Parameters

- `job_id` (path, integer, required)

Responses

- **200** → JobDescriptionResponse
 - **422** → HTTPValidationError
-

Evaluations

AI resume analysis against job descriptions, plus human ratings.

POST`/evaluations/analyze`**Auth Required**

Analyze Candidate

Request Body

`AnalyzeRequest`

Responses

- **200** → EvaluationResponse
 - **422** → HTTPValidationError
-

GET /evaluations/{evaluation_id}

Auth Required

Get Evaluation

Parameters

- evaluation_id (path, integer, required)

Responses

- **200** → EvaluationResponse
- **422** → HTTPValidationError

PATCH /evaluations/{evaluation_id}/rating

Auth Required

Update Evaluation Rating

Parameters

- evaluation_id (path, integer, required)

Request Body

EvaluationRatingUpdate

Responses

- **200** → EvaluationResponse
- **422** → HTTPValidationError

Interview Questions

AI-generated technical, scenario, and coding interview questions.

POST /interview-questions/generate

Auth Required

Generate Questions

Request Body

GenerateQuestionsRequest

Responses

- **200** → InterviewQuestionsListResponse
- **422** → HTTPValidationError

GET /interview-questions/candidate/{candidate_id}

Auth Required

Get Questions For Candidate

Parameters

- candidate_id (path, integer, required)

Responses

- **200** → InterviewQuestionsListResponse
- **422** → HTTPValidationError

Candidates

Candidate listing, detail, editing, deletion, and comparison.

GET`/candidates/`**Auth Required**

List Candidates

Parameters

- search (query, object, optional)
- skill (query, object, optional)
- status (query, object, optional)
- min_experience (query, object, optional)
- max_experience (query, object, optional)
- page (query, integer, optional)
- page_size (query, integer, optional)

Responses

- **200** → CandidateListResponse
 - **422** → HTTPValidationError
-

GET`/candidates/{candidate_id}`**Auth Required**

Get Candidate

Parameters

- candidate_id (path, integer, required)

Responses

- **200** → CandidateDetailResponse
 - **422** → HTTPValidationError
-

PUT`/candidates/{candidate_id}`**Auth Required**

Update Candidate

Parameters

- candidate_id (path, integer, required)

Request Body

CandidateUpdate

Responses

- **200** → CandidateResponse
 - **422** → HTTPValidationError
-

DELETE`/candidates/{candidate_id}`**Auth Required**

Delete Candidate

Parameters

- candidate_id (path, integer, required)

Responses

- **204**
 - **422** → HTTPValidationError
-

POST`/candidates/compare`**Auth Required**

Compare Candidates

Request Body

CompareRequest

Responses

- **200** → CompareResponse
- **422** → HTTPValidationError

Dashboard

Aggregate statistics and chart data for the recruiter dashboard.

GET`/dashboard/summary`**Auth Required**

Get Dashboard Summary

Responses

- **200** → DashboardSummary

GET`/dashboard/skills-distribution`**Auth Required**

Get Skills Distribution

Responses

- **200** → SkillsDistributionResponse

GET`/dashboard/experience-distribution`**Auth Required**

Get Experience Distribution

Responses

- **200** → ExperienceDistributionResponse

GET`/dashboard/upload-stats`**Auth Required**

Get Upload Stats

Responses

- **200** → UploadStatsResponse

Chat Assistant

Natural language AI assistant for querying candidates.

POST`/chat/`**Auth Required**

Chat

Request Body

ChatRequest

Responses

- **200** → ChatResponse
- **422** → HTTPValidationError

Activity Logs

Audit trail of login, upload, analysis, and status-change events.

GET`/activity-logs/`**Auth Required**

List Activity Logs

Responses

- **200** → ActivityLogListResponse

Other

Miscellaneous root endpoint.

GET`/`**Public**

Read Root

Responses

- **200**

Appendix — Key Data Schemas

UserCreate

Field	Type	Required
username	string	Yes
email	string	Yes
password	string	Yes
full_name	string	No

UserResponse

Field	Type	Required
id	integer	Yes
username	string	Yes
email	string	Yes
full_name	string	No
role	string	Yes
created_at	string	Yes

Token

Field	Type	Required
access_token	string	Yes
token_type	string	Yes

CandidateResponse

Field	Type	Required
id	integer	Yes
name	string	Yes
email	string	No
phone	string	No
experience_years	number	Yes
education	string	No
status	string	Yes
created_at	string	Yes
updated_at	string	No

CandidateDetailResponse

Field	Type	Required
id	integer	Yes
name	string	Yes
email	string	No
phone	string	No
experience_years	number	Yes
education	string	No
status	string	Yes
created_at	string	Yes
updated_at	string	No
skills	string	No
certifications	string	No
projects	string	No

CandidateUpdate

Field	Type	Required
name	string	No
email	string	No
phone	string	No
experience_years	number	No
education	string	No
status	string	No

CompareRequest

Field	Type	Required
candidate_ids	array[integer]	Yes

CompareResponse

Field	Type	Required
candidates	array[CandidateComparisonItem]	Yes
common_skills	array[string]	Yes

JobDescriptionCreate

Field	Type	Required
title	string	Yes
description	string	Yes
required_skills	string	No

JobDescriptionResponse

Field	Type	Required
id	integer	Yes
title	string	Yes
description	string	Yes
required_skills	string	No
created_at	string	Yes

AnalyzeRequest

Field	Type	Required
candidate_id	integer	Yes
job_description_id	integer	Yes

EvaluationResponse

Field	Type	Required
id	integer	Yes
candidate_id	integer	Yes
job_description_id	integer	Yes
match_score	number	No
matching_skills	string	No
missing_skills	string	No
experience_gap	string	No
ai_recommendation	string	No
recruiter_rating	number	No
technical_rating	number	No
hr_rating	number	No
final_recommendation	string	No
created_at	string	Yes

EvaluationRatingUpdate

Field	Type	Required
recruiter_rating	number	No
technical_rating	number	No
hr_rating	number	No
final_recommendation	string	No

GenerateQuestionsRequest

Field	Type	Required
candidate_id	integer	Yes
job_description_id	integer	Yes

InterviewQuestionsListResponse

Field	Type	Required
candidate_id	integer	Yes
job_description_id	integer	Yes
questions	array[InterviewQuestionResponse]	Yes

ResumeUploadResponse

Field	Type	Required
message	string	Yes
candidate_id	integer	Yes
resume	ResumeResponse	Yes
extracted_data	ExtractedResumeData	Yes

ChatRequest

Field	Type	Required
message	string	Yes

ChatResponse

Field	Type	Required
response	string	Yes
matched_candidates	array[ChatCandidateSummary]	Yes
